

Pattern of description:

FDB 16/4 - 60
 Filigran®-Punching Shear Reinforcement FDB
 overall height: 16 cm
 loop protrusion at upper chord: 4 cm
 length of element: 60 cm
 (loop protrusion¹⁾ at lower chord approximately 9 mm)

Dimensions

Overall height [cm] / loop protrusion ¹⁾ at upper chord [cm]	13 / 4 – 19 / 4
	20 / 5 – 30 / 5

¹⁾ other loop protrusions by special arrangement only

Material:

- weldable ribbed reinforcement with a characteristic yield strength of 500 MPa
- further characteristics according to ETA 13/0521, 14th June 2018.

Delivery forms:

- on pallets²⁾ with length of pieces up to 80 cm
- according to arrangements

²⁾ separate list
